## WHY AMERICANS LEAVE.

A man was brought up before Judge  
Lindsay the other day to state why  
he should not be punished for con-  
tempt of court, because of failure to  
pay alimony. The man, a carpenter,  
on the stand testified that he was un-  
able to secure steady employment on  
account of the preference given to Ori-  
ental mechanics. The case dismissed.

The case is a pretty illustration of  
the speed with which this Territory is  
being un-Americanized. Instead of  
giving Americans a chance to make a  
living here by throwing all the work  
possible in their way, even work per-  
formed for the Federal government is  
entrusted to Asiatics by men who talk  
loud of the necessity of making this a  
truly American country.

Is it a wonder that the mainland  
smiles ironically when he hears our  
protestations and that the good men  
who help to make this group an  
actual American territory leave the  
islands instead of inducing others to  
settle down here?—Garden Island.

THE LAHAINA  
WATER WORKS

SUPERINTENDENT CAMPBELL  
PLANS SOME IMPROVEMENTS IN  
THE SYSTEM.

While at Lahaina Superintendent  
Marston Campbell, of the Department  
of Public Works spent considerable  
time in looking over the water works  
system of the town as well as a num-  
ber of park projects and harbor im-  
provements contemplated. As a result  
it is probable that steps will be taken  
in a short time to improve the water  
supply of the town which at present is  
not of the best owing to the fact that  
the drainage of a strip of taro lands  
and some pasture lands gets into it.  
This can be eliminated by the use of  
an extension of wooden stave pipe, which  
will probably be built from the fund  
for the maintenance of water works,  
and ultimately more extensive im-  
provements made.

A recreation park with base ball  
ground is also wanted at the old cap-  
ital, but this cannot be established  
without a special act of the Legislature.  
A considerable amount of grading and  
filling in of a number of fish ponds is  
involved in this project.

## Kilauea Volcano

Wireless telegraph brings the news  
that on last Saturday night, March  
21st, lava rose in the pit 50 feet. This  
lake of fire is now within 200 feet of  
the surface and the reflection is visible  
at Hilo, 30 miles distant. This is the  
most active demonstration of Kilauea  
since January of 1907, and the oppor-  
tunity to witness it should not be  
missed.

Leaving Honolulu in the splendid  
new Inter-Island Steamship "Mauna  
Kea" tomorrow (Tuesday) noon, one  
may spend two nights and a day at  
the Volcano House, returning by same  
steamer next Saturday morning.

Fare for the round trip, including  
hotel accommodations, etc., \$42.50.
